**Profile (short description)**

We are a trade company which helps international companies buy Polish boilers. At present, we cooperate with 21 countries. Our contacts with many owners of the Polish boiler production plants allows us the possibility of negotiating very favourable commercial conditions. You will be buying Polish boiler from us at the prices which you will be offered directly in the plant. Why from us and not in the plant. Buying from us, you will have a reliable business partner in Poland to arrange almost everything with us. We will negotiate the conditions of cooperation for you. We will speed up production deadlines. We will organize transport. We provide spare parts. We will help in settling disputes. We care. Why is it easier with us. Imagine that you need to buy 10 boilers in the plant. For the plant you are just another client to buy 10 boilers. We buy many more in the plants. We are perceived very seriously. This is why it is easier for us to act on your behalf we treat the purchase of your 10 boilers very serious and we regard you as a serious importer.

Confirm our credibility. Ask the plant about us. The name of our company is 499 and the website [boilers.pl](http://boilers.pl) is the business card with which we are.
